

KAUSHAL SHAH

Senior Software Developer | Full-Stack | Angular · .NET Core · Node.js · AI Automation

+91 99744 42525 · kaushal@mrkaushalshah.com · linkedin.com/in/mrkaushalshah · mrkaushalshah.com · Pune, India

PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 4.5+ years of experience building enterprise-grade applications across LegalTech, FinTech, and SaaS domains. Deep expertise in Angular, .NET Core, and Node.js with a strong track record of delivering complex multi-role systems, backend migrations, and API integrations. Recently founded Sparqal Systems — building AI automation products and delivering web solutions for SMBs. Proven ability to lead modules, mentor junior developers, and own end-to-end delivery under lean constraints.

TECHNICAL SKILLS

Frontend	Angular 18+, Vue.js, TypeScript, HTML5, CSS3, TailwindCSS, Bootstrap, Figma
Backend	.NET Core, C#, Node.js, Express.js, REST APIs, Supabase
Database	SQL Server, MySQL, MongoDB, Sequelize
DevOps	Azure DevOps, CI/CD Pipelines, GitHub, Docker (basic)
AI / Automation	OpenAI API, AI workflow automation, WhatsApp automation, prompt engineering
Other	Cypress (E2E Testing), Selenium, RPA, Windows Authentication, JWT, S2S Auth

WORK EXPERIENCE

Senior Software Engineer | Sparqal Systems

Dec 2025 – Present

Surat, India (Remote)

- Founded a tech agency offering web design, web application development, and AI automation services to SMBs across the world.
- Architected and built SAAS name Sparqal Orbit — a multi-tenant SaaS platform for Instagram DM automation and AI-powered content scheduling (Angular, Node.js, DigitalOcean).
- Delivered full-stack client projects including “**V&S Apparel**” (multi-tenant e-commerce, Angular + Node.js + MySQL + AWS EC2) with IP-based geo-routing and WhatsApp lead generation and “**GreenStream Accounts Pvt. Ltd.**” an informative website for Financial and Accounting services.
- Built internal tools: InnerDesk CRM (React + Node.js + MongoDB), Real Estate CRM, LinkedIn post scheduler, and a multi-agent system for agentic AI.
- Managed end-to-end delivery: client scoping, UI/UX, development, deployment, and post-launch support.

Senior Software Engineer | Utterwise Technologies Pvt. Ltd.

Aug 2025 – Dec 2025

Pune, India

- Hired specifically to lead the restructuring of an entire legacy banking platform for JJIT Fintech Pvt. Ltd.
- Assessed existing architecture and drove the redesign of core banking modules for improved scalability and maintainability.
- Worked directly with fintech stakeholders to align technical decisions with compliance and business requirements.

Senior Software Developer | Xperate Systems Pvt. Ltd.

Dec 2022 – May 2025

Pune, India

- Delivered 8+ production projects across LegalTech and enterprise domains using Angular, .NET Core, and Azure DevOps.
- Led backend migration of a VB.NET Customer Portal to .NET 9, improving scalability and building secure customer-facing APIs.
- Built a 5-stage multi-role Payment Approval System with Windows Authentication and automated approval workflows.
- Developed Speech Processing middleware integrating SpeechLive with Actionstep via S2S authentication and data mapping.
- Contributed to a 14-member team on a LegalTech Case Management System with real-time updates and email notifications.
- Led a 2-member team on the Account Request module with Actionstep API integration and RPA automation.
- Built an internal Revenue Forecasting System for financial insights with automated billing rate and invoice generation for Xperate Systems.
- Designed 5-page Figma UI for a client project; built Conflict Check identity validation system for compliance workflows.

Software Developer | Siddhatech Software Services Pvt. Ltd.

Oct 2021 – Dec 2022

Pune, India

- Built frontend interfaces in Angular and Vue.js across 5 client projects spanning logistics, HRMS, finance, and e-learning.
- Migrated AngularJS codebase to Vue.js for Pagatodo (Finance), improving structure and runtime performance.
- Implemented Cypress E2E automation testing for MardomGo (cargo shipping), improving release confidence.
- Designed UI in Figma and developed employee management, timesheets, and asset management for ART HRMS (Vue.js).

KEY PROJECTS

Sparqal Orbit — Multi-tenant SaaS | Angular, Node.js, MySQL, DigitalOcean, OpenAI

- Instagram DM automation engine and AI content scheduling platform with 4-tier pricing model.

V&S Apparel — E-Commerce Platform | Angular, Node.js, MySQL, AWS EC2, Cloudflare

- Multi-tenant apparel platform with IP-based geo-routing, INR/USD pricing, WhatsApp lead-gen, and MySQL DB partitioning.

Pay Your Share — Bill Splitting App | Angular, .NET Core, Azure CI/CD

- Group expense splitting app with Google Auth, email invitations, and fully automated Azure DevOps deployment pipeline.

EDUCATION

Bachelor of Computer Application (Distance Learning)

Himalayan University, Arunachal Pradesh
